

Hello,

Thank you for taking the time to ask the public what our wishes are in regards to the proposed new LPFM stations.

I am opposed to the proliferation of these types of stations if they are a detriment to existing users of FM translators. In particular I am referring to the K-LOVE radio network. As a father and former elementary school teacher I find it refreshing to have a radio listening option that is a positive and encouraging source in our community. In this day and age of the "7 second delay" and "wardrobe malfunctions," I am relieved to know that there are responsible broadcasters in America that have the best interests of their listening audience in mind, an audience that is made up by as many children as adults. To threaten to eliminate this type of positive entertainment in our community takes away the freedom to choose between family and child safe entertainment and standard stations who employ dj's who aren't as concerned with what "family ears" hear.

I ask you to do what you can to preserve this valuable voice in my community.

Sincerely,
Andrew Enriques
